

Arizona State Parks Heritage Fund FY21 & FY22 Projects

The Arizona State Parks Heritage Fund provides grant opportunities for trail projects; outdoor environmental education programs; local, regional, and state parks; as well as historic preservation projects through legislatively appropriated funds and ARPA support.

An online map – <https://bit.ly/405KGEF> – created by the Arizona Heritage Alliance summarizes the State Parks Heritage Fund projects funded in FY21 & FY22. When you view the map, note that the historic preservation projects are grouped by date of construction. Some outdoor environmental education projects may not have a physical address, so they're listed by their P.O. Box address.

If you see an add or edit that needs to be made, let us know! Please send us an email at mail@azheritage.org
